Ethan G Bautista

etbautista@ucsd.edu | (858) 226-2808 | linkedin.com/in/ethan-bautista-44b30a28b/

EDUCATION

University of California San Diego
Bachelor of Science, Cognitive Science, Specializing in Design & Interaction Expected June 2027
Minor: **Computer Science and Engineering**
Relevant Coursework: Human-Computer Interaction, Advanced Data Structures, Usability & Information Architecture, Social Computing, Web Client Languages, Design & Analysis of Algorithms

Yonsei University – Seoul, South Korea Spring 2026
Study Abroad

CLUB POSITIONS & INTERNSHIPS

San Diego Supercomputer Center - RDS Summer Internship 2025 July/2025-September/2025
Software Developer & Product Owner
- Built a peer-to-peer marketplace app for campus students in React Native, TypeScript, and Firebase over a 10-week internship with a team of 5
- Owned product direction as Product Owner, translating user research into a prioritized feature roadmap and Figma prototypes

Out The Archive - University of California, San Diego February/2025-June/2025
Web Developer
- Developed an interactive club site in React, TypeScript, and Tailwind CSS, implementing pages from design handoff to deployment
- Collaborated with designers and fellow developers on interaction patterns and visual direction

Association for Computing Machinery - University of California, San Diego October/2024-January/2025
Front End Developer - Fall 2024 Project Team 1
- Built a travel-matching web app connecting users with overlapping destinations, using React and Material UI on a 6-person team
- Designed the full interface in Figma from wireframe through high-fidelity prototype

PROJECTS

League of Legends AI Training Bot
- Came up with a pitch for the idea of an AI Training Bot for players and students to train for Gen.G Esports CEO Arnold Hur through a Language & Gaming class at Yonsei University
- Designed an AI Training Bot modeled after pro League of Legends Player “Canyon” by analyzing his unique strengths and playstyle

SafaRiff
- Created an app for CSE 170: Human Computer Interaction, where self taught guitarists can gain feedback from other guitarists online
- Conducted user research and used results to design a user workflow and a high-fidelity interactable prototype in Figma

SKILS

- Languages: TypeScript, JavaScript, Java, C, HTML, CSS, Python
- Tools: Git/Github, Figma, Firebase
- Frameworks & Libraries: React, React Native, Tailwind CSS, Material UI, Bootstrap
- Spoken Languages: English, Tagalog
